(b) if so, whether Government propose to do away with zero duty on import of capital goods in order to provide a level playing field to the domestic industry; and

(c) whether Government would ensure that WTO's Tariff Structure Agreement should be such that the domestic industry in India is not at a disadvantage to multinationals?

THE MINISTER OF STATE IN THE MINISTRY OF COMMERCE AND INDUSTRY (DR. RAMAN): (a) and (b) Zero customs duty regime pertaining to heavy industry sectors is applicable in the case of mega power projects and specified capital goods for road construction, as these are basic infrastructural projects. All other projects now attract import duty.

(c) Members of WTO can provide tariff protection to the domestic industry within the overall commitments made to WTO. India has, by and large bounds its tariff lines for finished industrial products higher than the bindings for intermediate goods, machinery and equipment.

Doordarshan and AIR Projects in Punjab

*112. SHRI LAJPAT RAI: Will the Minister of INFORMATION AND BROADCASTING be pleased to state:

(a) the details of Doordarshan and AIR projects in Punjab under implementation with their present status;
